

a Division of AVX Corporation

For the attention of : Zeiss Eltro

Date : Seurre

30 august 2002

**Object : PRODUCT MODIFICATION ANNOUNCEMENT**

Customer reference : /

TPC Part number : FZX06-8381--C

TPC Outline drawing : FZX06-8381--C ind. d of the 24/11/98

New TPC part number : FZX06-8381--D

New TPC outline drawing : FZX06-8381--C ind. e of the 30/08/02

**MODIFICATIONS SUMMARY :**

|                                        |     |                        |     |
|----------------------------------------|-----|------------------------|-----|
| Technology modified :                  | YES |                        |     |
| Mechanical characteristics impact :    | NO  |                        |     |
| Electrical characteristics impact :    | NO  | Type test validation : | YES |
| Effect on performances :               | NO  |                        |     |
| *****                                  |     |                        |     |
| Dielectric film :                      | YES | Internal wiring :      | NO  |
| Case dimensions :                      | NO  | Marking :              | YES |
| Case raw material :                    | NO  | Surface treatment :    | NO  |
| Electrical outputs :                   | NO  | Process modification : | NO  |
| Ground :                               | NO  | Résin :                | NO  |
| Brackets :                             | NO  | Other suppliers :      | NO  |
| Isolations Ground /electrical output : | NO  |                        |     |
| Other modifications :                  | NO  |                        |     |
| Change of manufacturing area :         | NO  |                        |     |

**TPC COMMENTS :**

Substitution of our old discharge technology by our new discharge technolgy.

Technical datas aren't change.

Part Number will pass to : FZX06-8391--D

Provisionnal date of practice : Next order

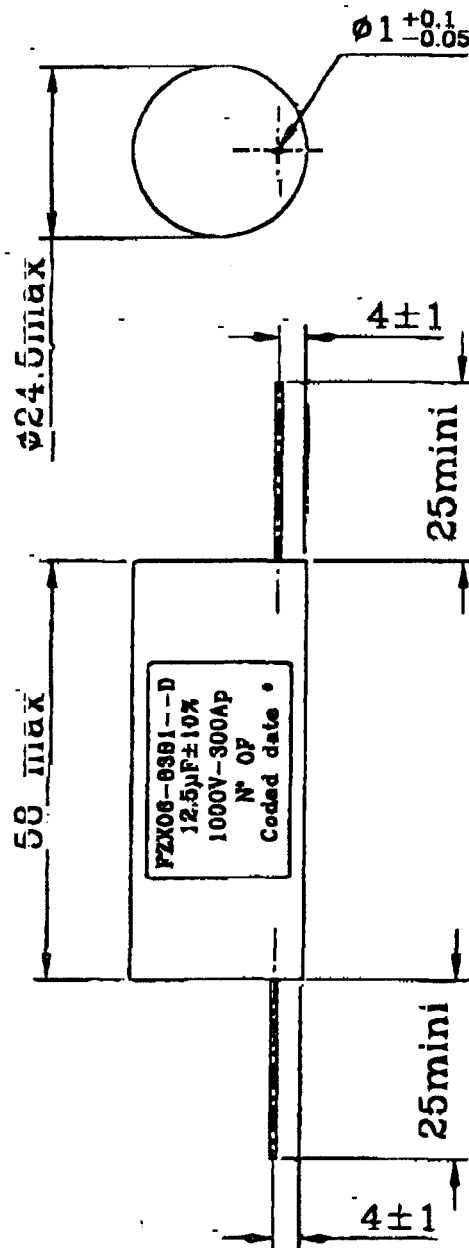

Updating customer spécification : Not customer specification

**TPC**
